

How to do integrative studies?

- Problem of small samples sizes based upon college undergraduates. Typical subject pools are neither large enough nor diverse enough.
- Expensive to get access to large and diverse populations
 - Exceptions include national and international survey samples using preselected items:
 - National Longitudinal Study of Youth (NLSY)
 - Program for International Student Assessment (PISA)
 - German Socio-Economic Panel
- Is it possible to do large based sampling with tailored items?
- Yes, use the web.
